Standard Manufacturing® Introduces the 25 Round Drum for the SKO® Platform Semi Automatic Shotguns

NEW BRITAIN, CT. –Standard Manufacturing Co, manufacturer of the world’s most revolutionary firearms and accessories, has expanded its product offering with the introduction of its 25 round drum magazine for the SKO platform semi automatic 12 gauge shotguns which includes the SKO, SKO MINI, and SKO SHORTY. The rotary drum has a capacity of 24+1 rounds of 12 gauge 2 ¾” shotgun shells. This new 25 round drum is built in the USA with the highest level of workmanship which Standard Manufacturing has become known for.

The MSRP of the new 25 round drum is \$229.00 and will be available through Standard Manufacturing’s network of distributors and dealers.

For more information on the new 25 round SKO drum or any other Standard Manufacturing Co. products visit www.stdgun.com and follow us at @stdgun on Facebook, Twitter, and Instagram.

Please check with your local, state and federal agencies regarding the legality of use of this product in your area.
