FOR IMMEDIATE RELEASE

THE SKO-12 Shorty

The Fastest, Shortest, Semi- Auto Shotgun on the market!!!

Standard Manufacturing Co, LLC based in New Britain, CT announces the release of their SKO-12 Shorty, a magazine fed, gas operated semi-automatic shotgun.

Machined from 7075 aircraft grade aluminum with the latest technology in CNC machining, the SKO Shorty is lightweight and durable. The muzzle is threaded to accept a wide variety of choke tubes, door breechers, and accessories. The SKO Shorty is MIL-SPEC with a hard anodized finish on the upper and lower receiver. An ambidextrous safety allows for use in strong or weak hand situations, while also using familiar AR-style controls. The SKO Shorty possesses the most reliable gas operation system available with smooth and flawless operation across a variety of loads.

Sporting an 18" barrel qualifies the SKO Shorty as a shotgun with a 26" overall length, which is equivalent to the short pump shotguns currently on the market. The barrel will accept both 2 ¾" and 3" shot shells. The SKO Shorty utilizes its superior firepower over pump shotguns due to the fast semi auto action and quick interchange of magazines. Included with the shotgun is one 5 round magazine with optional 2, 5, or 10 round magazines available.

Standard Manufacturing's SKO-12 Shorty features a standard matte black finish and is available through authorized Standard Manufacturing dealers nationwide. More information is available at <http://stdgun.com>

The SKO-12 Shorty by Standard Manufacturing Company, is the Fastest, Shortest, Semi- Auto Shotgun on the market!

Machined from 7075 aircraft grade aluminum with the latest technology in CNC machining, the SKO Shorty is lightweight and durable. The barrel is 18" with a 26" overall length. The SKO accepts both 2 ¾" and 3" shells and has a threaded muzzle to accept choke tubes, door breechers, and other accessories. It was specifically designed to utilize familiar AR-style controls and comes standard with an ambidextrous safety. Included with the shotgun is one 5 round magazine with optional 2, 5, or 10 round magazines available. Lastly, the SKO Shorty possesses the most reliable gas operation system available with smooth and flawless operation across a variety of loads.
